## Woven Treasures: Textiles from the Jasleen Dhamija Collection:

Kashmiri Pashmina robes, Central Asian *suzanis*, Iranian *kilims* and Zoroastrian ritual *sofrehs* are among the textiles on auction from Jasleen Dhamija's personal collection. Jasleen is a pioneer in the research and revival of the textile traditions of India, Iran, Central Asia, South East Asia, the Balkans, and Africa. Each piece from her collection has been carefully selected for its technique, design, colours and meaning. Some have been purchased in bazaars; others directly off a weaver's loom and some are the first pieces from independent India's revival efforts. Many are no longer made, barely visible in the cultures they come from, their use and meaning almost forgotten. Each lot on auction is thoughtfully presented in the accompanying auction catalogue, with text by Dr. Monisha Ahmed, a textile historian and anthropologist whose work focuses on art practices and material culture in Ladakh and other parts of North India.

Minal Vazirani, co-founder of Saffronart says, “*Fine Jewels and Woven Treasures* collectively offer a unique window into the philosophy, spirituality and aesthetics of a diverse set of cultures across South Asia, the Middle East and Europe. The jewellery sale features important pieces created around European old cut diamonds, as well as the traditional Indian jewellery techniques of *meenakari* and *thewa* seen from the Mughal era to present day. This attention to the details of aesthetics is underscored in the fascinating assemblage of textiles which document rare pieces from northern India, Iran and Central Asia through the collecting journey of the leading textile historian, Jasleen Dhamija. The Jewellery and Textile auctions offer buyers an unprecedented opportunity, not only to acquire pieces of exceptional quality, but also become keepers of traditions which are recognised for their greatness but unfortunately are also on the verge of dying out.”
